

A Partner of Choice

*A Global
Fully Integrated
Oleochemical and
Personal Care Products
Company*

The VVF Story

VVF was established in 1939 by Godrej Pallonji Joshi as the Vegetable Vitamin Foods Company Ltd. The company has a longstanding and reputable history of processing vegetable oils. In 1956, VVF pioneered the process of continuous solvent extraction in India and installed a plant for the extraction of oil from seeds.

In 1971, VVF entered into manufacturing Oleochemicals, soon becoming India's largest manufacturer of Oleochemicals, the company set up a state-of-the-art fractionated fatty acid facility and began supplying fatty acids to customers across the world. Subsequently, VVF successfully commissioned a fatty alcohol plant based on Lurgi's wax ester technology in 2004 in Mumbai, India.

VVF is the partner of choice for multiple Indian and global customers in diverse segments, ranging from home and personal care, cosmetics, oilfields, paints and coatings, textiles, etc.

Today, the company has an annual capacity of 600,000 metric tonnes of fatty acids, fatty alcohols and glycerine.

Vision

To be a professionally managed and agile organization committed to a culture of innovation and operational excellence thereby, creating sustained value for our customers, employees and stakeholders.

Mission

To positively impact lives by striving to be the best at everything we do.

Values

Openness, Integrity, Respect, Innovation, Agility and Trust.

The Business

VVF (India) Ltd. with nearly 50 years of experience in oleochemicals, is the largest manufacturer of the full range of fatty acids and fatty alcohols in India and one of the few companies in the world making the longer chain fatty acids and alcohols from rapeseed/mustard seed oil.

VVF also has the unique capability to customise and develop Oleochemical products to meet its customer's needs.

Fatty Acids

VVF is the manufacturer and exporter of high quality distilled fatty acids produced from vegetable oils like coconut oil, palm oil and rapeseed/mustard seed oil.

The company has the entire range of fatty acids from Caproic, Caprylic, Capric, Lauric, Myristic, Palmitic, Stearic, Oleic, Erucic and Behenic.

VVF's fatty acid facilities are well equipped with efficient state of the art fractional distillation columns enabling the company to offer customized products to customers in niche segments.

Fatty acids are used in various end-use applications running the gamut of possibilities including Personal Care, Aromatic Agents, Candles and Wax, Carrier Fluid Cleaning Agents, Defoamers, De-inking Detergent Agents, Emulsifiers, Lubricants, Plasticizers, Rubber Intermediates, Surfactants, Solubilizers, Textile and Leather Auxiliaries.

Fatty Alcohol

VVF is the largest manufacturer and exporter of fatty alcohols in India, the state-of-the-art fatty alcohol production facility is based on Lurgi's 3rd generation wax ester technology. The facility produces high quality natural saturated fatty alcohols under the registered trade name Vagarol™.

VVF has the entire range of fatty alcohols from short chain Vagarol C10 (Decyl alcohol) to VagarolC22 (Behenyl Alcohol).

VVF has the capability of creating niche and customized products for its customers. Fatty alcohols are used in various end-use applications like Homecare and personal care, Surfactants, Intermediate for Pharmaceutical and Agrochemicals, Pour point regulators, Antioxidants, Cleaning Agent, Defoamers, Detergency Boosters, Lubricants, Plastic additives and Solubilizers.

Glycerin

VVF has been a major global supplier of glycerin for the last 40 years. Our high quality refined glycerin is produced using an "all vegetable" source.

With state-of-the-art processes and quality systems, VVF manufacturers and delivers natural refined glycerin to CP, IP, BP, EP and USP standards.

Glycerin offers numerous end-use applications, including Personal Care, Cosmetics Pharmaceuticals, Food and Beverages along with many industrial applications Cellulose Films, De-icing & Anti-freeze agents, Emulsifiers, Esters Intermediate Moisturizing, Nitration, Plasticizers and Poly Polyurethanes.

New Products

VVF constantly endeavors to be a sustainable innovator and partner of choice to its customers.

The company's long-standing partnerships in its personal care business have helped the company to understand global trends and requirements.

Our new products not only cater to the home and personal care segment but also to oil fields, plastics & polymers, paints & coatings and textile segments to name a few.

R&D

VVF has a full-fledged application development and product development facility in its plant in Mumbai – India. The company's highly specialized and experienced R&D team works with our global customers and aids in developing solutions, new products, new processes and new applications, continuously innovating for and with our customers.

Certifications

- Kosher, Halal,
- HACCP
- FDA approved Glycerin
- Our quality recognition includes certification for:
 - ISO 9001 (Quality management system)
 - ISO 14001 (Environment Management System)
 - ISO 45001 (Occupational health & safety)
 - GMP +B2 certification for fatty acids,
 - ISO 22000 (Food safety management system),
- Eco Vadis
- RSPO
- ECOCERT – COSMOS verified raw materials
- VVF's products are not tested on animals and from a vegetable origin.

EMULSIFYING WAX

Trade Name	Specification standard	Description
VEGAROL EW 100	CETOMACROGOL EMULSIFYING WAX BP (Nonionic Emulsifying Wax)	A white or almost white, waxy solid or pastilles. Practically insoluble in water, producing an emulsion: moderately soluble in ethanol (96%) partly soluble in ether
VEGAROL EW 200	EMULSIFYING WAX (Anionic Emulsifying wax)	An almost white or pale-yellow pastilles/ Flakes, becoming plastic when warmed. Practically insoluble in water, forming an emulsion: partly soluble in ethanol (96%)
VEGAROL EW 300	EMULSIFYING WAX NF (Nonionic Emulsifying Wax-NF)	Emulsifying wax is a waxy solid/ pastilles prepared from Cetostearyl Alcohol containing a polyoxyethylene derivative of a fatty acid ester of sorbitan
VEGAROL Hydrossoft	Proprietary blend	It is a Proprietary blend of Cetyl alcohol combined with the viscosity building effect of Stearyl alcohol as an effective thickener

FATTY ALCOHOLS : FUNCTIONS & ITS APPLICATION

TRADE NAME	GENERIC NAME	FUNCTION & APPLICATION	APPLICATION INDUSTRY
Vegarol 1099	Decyl alcohol 99%	Used as a chemical intermediate in the production of esters and fragrances and as an artificial flavor in foods. It also finds use in synthetic detergents, lube additives, pharmaceuticals, cosmetics, rubber, and textiles.	Cosmetics/ Fragrance & Flavours/ Pharmaceuticals/ Textiles/ Agrochemicals, etc.
Vegarol 1214	Lauryl Myristyl Alcohol(C12:14)	Used as Cleaning/ washing agents and additives, Intermediates for Surface-active agents: Non-ionic (Ethoxylates, Alkyl Polyglucosides, etc.), Anionic (Phosphates, Sulfo Succinates, etc) & Cationic (Quaternary ammonium salts, amine oxides)	Wide application - intermediate for cosmetics/ personal care/ detergent etc.
Vegarol 1216	Lauryl Myristyl Alcohol with Cetyl(C12 to C16)	Used as Cleaning/ washing agents and additives, Intermediates for Surface-active agents: Non-ionic (Ethoxylates, Alkyl Polyglucosides, etc.), Anionic (Phosphates, Sulfo Succinates, etc) & Cationic (Quaternary ammonium salts, amine oxides)	Wide application - intermediate for cosmetics/ personal care/ detergent etc.
Vegarol 1218	Lauryl Myristyl Alcohol with Cetyl & Stearyl (C12 to C18)	Used as Cleaning/ washing agents and additives, Intermediates for Surface-active agents: Non-ionic (Ethoxylates, Alkyl Polyglucosides, etc.), Anionic (Phosphates, Sulfo Succinates, etc) & Cationic (Quaternary ammonium salts, amine oxides)	Wide application - intermediate for cosmetics/ personal care/ detergent etc.
Vegarol 1618 TA	Cetostearyl alcohol (C16:18 30/70)	Used as Conditioner, Opacifier, Vicosifier, Emollient, Sheen cum Gloss Agent, Emulsifier/ Solubilizer in cleaning agents, Creams & Lotion. Intermediate for Non-ionic Surfactants, Poly Acrylates Esters.	Cosmetics/ personal care/ pharmaceuticals/ coatings/ metalworking fluids/ rolling oils/ mining chemicals/ paper & textiles/ etc.
Vegarol 1618 (50:50)	Cetostearyl alcohol (C16:18 50/50)	Used as Conditioner, Opacifier, Vicosifier, Emollient, Sheen cum Gloss Agent, Emulsifier/ Solubilizer in cleaning agents, Creams & Lotion. Intermediate for Non-ionic Surfactants, Poly Acrylates Esters.	Cosmetics/ personal care/ pharmaceuticals/ coatings/ metalworking fluids/ rolling oils/ mining chemicals/ paper & textiles/ etc.
Vegarol 1618 PS	Cetostearyl alcohol (C16:18 60/40)	Used as Conditioner, Opacifier, Vicosifier, Emollient, Sheen cum Gloss Agent, Emulsifier/ Solubilizer in cleaning agents, Creams & Lotion. Intermediate for Non-ionic Surfactants, Poly Acrylates Esters.	Cosmetics/ personal care/ pharmaceuticals/ coatings/ metalworking fluids/ rolling oils/ mining chemicals/ paper & textiles/ etc.
Vegarol 1698	Cetyl alcohol 98% (C16 98)	Used as Cleansing Agent, Emollients, emulsion stabilizers, viscosity control agents, coupling agents & foam stabilizers, Bodying Agent. Used as binders and release agents. Emulsifying Agent & Stiffening agent. Synthetic flavouring substances, Texturizing agent and adjuvants. Intermediate for surfactants, etc. Also, used as Lubricant in Bulk Polymerization process.	Cosmetics/ personal care/ pharmaceuticals/ coatings/ metalworking fluids/ rolling oils/ mining chemicals/ food/ paper & textiles/ polymeric.
Vegarol 1699	Cetyl alcohol 99% (C16 99)	Used as Cleansing Agent, Emollients, emulsion stabilizers, viscosity control agents, coupling agents & foam stabilizers, Bodying Agent. Used as binders and release agents. Emulsifying Agent & Stiffening agent. Synthetic flavouring substances, Texturizing agent and adjuvants. Intermediate for surfactants, etc. Also, used as Lubricant in Bulk polymerization process.	Cosmetics/ personal care/ pharmaceuticals/ coatings/ metalworking fluids/ rolling oils/ mining chemicals/ food/ paper & textiles/ polymeric.
Vegarol 1898	Stearyl alcohol 98% (C18 98)	Used as Cleansing Agent, Emollients, emulsion stabilizers, viscosity control agents, coupling agents & foam stabilizers, Bodying Agent. Used as binders and release agents. Emulsifying Agent & Stiffening agent. Synthetic flavouring substances, Texturizing agent and adjuvants. Intermediate for surfactants, etc. Also, used as Lubricant in Bulk polymerization process.	Cosmetics/ personal care/ pharmaceuticals/ coatings/ metalworking fluids/ rolling oils/ mining chemicals/ food/ paper & textiles/ polymeric.
Vegarol 1899	Stearyl alcohol 99% (C18 99)	Used as Cleansing Agent, Emollients, emulsion stabilizers, viscosity control agents, coupling agents & foam stabilizers, Bodying Agent. Used as binders and release agents. Emulsifying Agent & Stiffening agent. Synthetic flavouring substances, Texturizing agent and adjuvants. Intermediate for surfactants, etc. Also, used as Lubricant in Bulk polymerization process.	Cosmetics/ personal care/ pharmaceuticals/ coatings/ metalworking fluids/ rolling oils/ mining chemicals/ food/ paper & textiles/ polymeric.
Vegarol 1822	Behenyl alcohol (C1822)	Used as Conditioner, Opacifier, Vicosifier, Emollient, Sheen cum Gloss Agent. Intermediate for Non-ionic Surfactants, Poly Acrylates Esters, Phosphites, Quaternary ammonium salts, Alkyl amine oxide.	Cosmetics (generally for sunscreen)/ personal care/ pharmaceuticals/ oil field textiles etc.
Vegarol 2270	Behenyl alcohol (C22:70)	Used as Conditioner, Opacifier, Vicosifier, Emollient, Sheen cum Gloss Agent. Intermediate for Non-ionic Surfactants, Poly Acrylates Esters, Phosphites, Quaternary ammonium salts, Alkyl amine oxide.	Cosmetics (generally for sunscreen)/ personal care/ pharmaceuticals/ oil field textiles etc.
Vegarol 2280	Behenyl alcohol (C22 80)	Used as Conditioner, Opacifier, Vicosifier, Emollient, Sheen cum Gloss Agent. Intermediate for Non-ionic Surfactants, Poly Acrylates Esters, Phosphites, Quaternary ammonium salts, Alkyl amine oxide.	Cosmetics (generally for sunscreen)/ personal care/ pharmaceuticals/ oil field textiles etc.
Vegarol 2290	Behenyl alcohol (C22 90)	Used as Conditioner, Opacifier, Vicosifier, Emollient, Sheen cum Gloss Agent. Intermediate for Non-ionic Surfactants, Poly Acrylates Esters, Phosphites, Quaternary ammonium salts, Alkyl amine oxide.	Cosmetics (generally for sunscreen)/ personal care/ pharmaceuticals/ oil field textiles etc.
Vegarol 2022	Arachidyl Behenyl alcohol	Used as Emollient in cosmetics; surfactant for polymerisation; synthetic fibres; emollient for pharmaceuticals; as antihistamine.	Cosmetics/ personal care/ pharmaceuticals etc.
Vegarol 20	Arachidyl alcohol 90%	Used as Synthetic intermediate, Process chemical , in cleaning agents, binders and release agents	Personal care/ pharmaceuticals/ Mining/ Metalworking fluids/ Paper/ Textile/ Polymer/ Construction,etc.
Vegarol 2095	Arachidyl alcohol 95%	Used as Synthetic intermediate, Process chemical, in cleaning agents, binders and release agents	Coatings/ Metalworking fluids/ Paper/ Textile/ Plastic/ Agrochemicals,etc.

FATTY ACIDS : FUNCTIONS & ITS APPLICATION

PRODUCT NAME	GENERIC NAME	FUNCTION & APPLICATION	APPLICATION INDUSTRY
Caproic Acid 50%	Caproic 50 (C6 50%)	Used as inhibitor in production of polyester plasticizer. Used as flavoring and Perfuming Agent.	Perfume/ flavours/ polyester/ metalworking fluids etc
Caprylic Acid 99%	Caprylic 99 (C8 99%)	Used as disinfectant, alagaeicide, bactericide, etc	Surface cleaner/ home care/ agrochemicals
Capric Acid 99%	Capric 99 (C10 99%)	Intermediate for manufacturing of esters for artificial fruit flavours and for synthesis of other organic chemicals	Perfumes / lubricants/ rubber/ food additive/ pharmaceuticals etc.
Caprylic-Capric Acid	Caprylic Capric (C8/10 60/40)	Intermediates for Medium Chain Triglycerides/ Caprylic-Capric Triglyceride manufacturing, Glycerol Esters, Polyol Esters, Solubilizer for mineral oil, Corrosion inhibitors etc	Cosmetics/ personal care/ food & flavours/ lubricants/ metalworking fluids
Lauric Acid 99%	Lauric 99 (C12 99%)	Used as Soaping agent, foaming agent in Shaving cream, Liquid Soap, Intermediate for Non-ionic Surfactants (Fatty Acid Ethoxylates), Amphoteric Surfactants (Bataines, Imidazoles, etc)	Personal care/ textiles / food & beverages etc.
Myristic Acid 99%	Myristic 99 (C14 99%)	Used as Soaping agent, foaming agent in Shaving cream, Liquid Soap, Surface Cleaners, Intermediate for Non-ionic Surfactants (Fatty Acid Ethoxylates), Amphoteric Surfactants (Bataines, Imidazoles, etc)	Personal care/ home care / textiles etc.
Stearic Acid 90%	Stearic 90 (C18 90%)	Used as foam stabilizer, Emulsifier, Opacifier, Viscosifier, Intermediates for Glycerol, Polyol and other Esters, Cationic Surfactants (Fatty Acid Ester Quats), Non-ionic Surfactants, etc.	Personal care/ metal working fluids/ oil & gas/ textiles etc.
Vegacid Superflex	Proprietary blend	Additive in manufacturing of Styrene- Butadiene-Rubber (SBR)	Rubber industry
Vegacid S	Proprietary blend	Used as Emulsifier, Solubilizer, Corrosion Inhibitor, Stabilizer in Metal cutting oil and other lubricants. Intermediate for variety of process additives.	Lubricants/ cosmetics/ oilfield/ textile auxillaries/ rubber/ paints & coatings/ pharmaceuticals/ mining industry etc.
Oleic 60	Oleic 60 (C18: 1 60%)	Used as Emulsifier , Solubilizer, Corrosion Inhibitor, Stabilizer in Metal cutting oil and other lubricants. Intermediate for variety of process additives.	Lubricants/ cosmetics/ oilfield/ textile auxillaries/ rubber/ paints & coatings/ pharmaceuticals/ mining industry etc.
Palmitic Acid 98%	Palmitic 98 (C16 98%)	Used as Emulsifier in Creams & Lotions. As a supplement in Dairy Cattle Feed Intermediate for variety of Esters and amides	Cosmetics/ personal care/ pharmaceuticals/ animal feed
Palmitic Acid 85%	Palmitic 85 (C16 85%)	Used as Emulsifier in Creams & Lotions. As a supplement in Dairy Cattle Feed Intermediate for variety of Esters and amides	Cosmetics/ personal care/ pharmaceuticals/ animal feed
Stearic Acid (UTSR)	Stearic acid rubber grade	Used in tyre manufacturing	Tyre/ rubber industry
DFA 1218	Distilled Fatty Acid (C12 45%)	Used in Soap manufacturing and Leather chemicals	Cosmetics/ personal care/ leather industry etc.
Stearic Acid (DTP-7)	Stearic acid (C16/18 30/50)	Used as foam stabilizer, Emulsifier, Opacifier, Viscosifier, Intermediates for Glycerol, Polyol and other Esters, Cationic Surfactants (Fatty Acid Ester Quats), Non-ionic Surfactants, Amides,etc.	Cosmetics/ personal care/ pharmaceuticals/ polymers & plastics/ textile auxillaries
Stearic Acid (DTP-CT)	Stearic acid (C16/18 35/65)	Used as foam stabilizer, Emulsifier, Opacifier, Viscosifier, Intermediates for Glycerol, Polyol and other Esters, Cationic Surfactants (Fatty Acid Ester Quats), Non-ionic Surfactants, Amides,etc.	Cosmetics/ personal care/ pharmaceuticals/ polymers & plastics/ textile auxillaries
Stearic Acid (P12)	Stearic acid (C16/18 55/45)	Used as foam stabilizer, Emulsifier, Opacifier, Viscosifier, Intermediates for Glycerol, Polyol and other Esters, Cationic Surfactants (Fatty Acid Ester Quats), Non-ionic Surfactants, Amides,etc.	Cosmetics/ personal care/ pharmaceuticals/ polymers & plastics/ textile auxillaries
Oleic Acid K	Oleic 70 (C18:1 70%)	Used as Emulsifier, Solubilizer, Corrosion Inhibitor, Stabilizer in Metal cutting oil and other lubricants. Intermediate for variety of process additives like Oleamides.	Lubricants/ cosmetics/ oilfield/ textile auxillaries/ rubber/ paints & coatings/ pharmaceuticals/ mining industry etc.
Vegacid 1880	Oleic 20 Grade 1 (C18:1 20%)	Used as Emulsifier, Solubilizer, Corrosion Inhibitor, Stabilizer in Metal cutting oil and other lubricants. Intermediate for variety of process additives.	Lubricants/ cosmetics/ oilfield/ textile auxillaries/ rubber/ paints (Alkyd Resin mfg.) & coatings/ pharmaceuticals/ mining industry etc.
Vegacid 1890	Oleic 20 Grade 2 (C18:1 20%)	Used as Emulsifier, Solubilizer, Corrosion Inhibitor, Stabilizer in Metal cutting oil and other lubricants. Intermediate for variety of process additives.	Lubricants/ cosmetics/ oilfield/ textile auxillaries/ rubber/ paints (Alkyd Resin mfg.) & coatings/ pharmaceuticals/ mining industry etc.
Erucic Acid-90%	Erucic 90 (C22:1 90%)	Used by derivatizing it into amide like Erucamide and other specialty additives	Plastic and polymer/ food/ textiles/ lubricants/ paints / ink/ etc
Erucic Acid-70%	Erucic 70 (C22:1 70%)	Used by derivatizing it into amidelike Erucamide and other specialty additives	Plastic and polymer/ food/ textiles/ lubricants/ paints / ink/ etc
Behenic Acid 90	Behenic 90 (C22:0 90%)	Used by derivatizing it into esters, Quats, Silver Salts and other specialty additives	Personal care/ cosmetics/ paper industry/ fabric care & industrial surfactants/ food/ photographic film industry etc.
Behenic Acid 8590	Behenic 8590 (C22:0 85%)	Used by derivatizing it into esters, Quats, Silver Salts and other specialty additives	Personal care/ cosmetics/ paper industry/ fabric care & industrial surfactants/ food/ photographic film industry etc.

GLYCERIN: FUNCTIONS & ITS APPLICATION

TRADE NAME	GENERIC NAME	FUNCTIONS & ITS APPLICATION	APPLICATION INDUSTRY
GLYCERIN USP/BP/IP/CP/EP	Glycerin	It has wide range of application. Used as humectants, humidifier, plasticizer. Intermediate in the production of propylene glycol, Glycerol esters, Epichlorohydrin, nitroglycerine, and acrolein.	Personal care/ cosmetics/ pharmaceuticals/ beverages/ tobacco/ coatings/ paper/ lubricants etc.

EMULSIFYING WAX: FUNCTIONS & ITS APPLICATION

TRADE NAME	DESCRIPTION	FUNCTIONS & ITS APPLICATION	APPLICATION INDUSTRY
VEGAROL EW 100	Cetomacrogol Emulsifying wax BP (Non-ionic emulsifying wax)	Emollient, carrier, excipient in Skin creams, antiperspirants, depilatories, hair conditioners, relaxers & dyes	Cosmetics/ personal care/ pharmaceuticals
VEGAROL EW 200	Emulsifying wax (Amionic emulsifying wax)	Emollient, carrier, excipient in Skin care, sun care, depilatories, etc.	Cosmetics/ personal care/ pharmaceuticals
VEGAROL EW 300	Emulsifying wax NF (Nonionic emulsifying wax-NF)	Emollient, carrier, excipient in Lotion and cream	Cosmetics/ personal care/ pharmaceuticals
VEGAROL HYDROSOFT	Proprietary blend	Emulsifier + Emollient gives elegant skin feel, described by users as silky, soft with no sticky or tacky feel on skin	Cosmetics/ personal care/ pharmaceuticals

OLEO DERIVATIVES: FUNCTIONS & ITS APPLICATION

TRADE NAME	DESCRIPTION	FUNCTIONS & ITS APPLICATION	APPLICATION INDUSTRY
VEGAROL SCI 65	Sodium salt of ester of sodium isethionate with fatty acid of coconut carbon chain blend or blend equivalent.	As surfactant, create wet feeling, solubilizes oil, and reduces surface tension, also aid in foaming	Personal care like shampoos shower gels, bubble bath, Liquid soaps baby products & syndet bars
VEGAROL SCI 80	Sodium salt of ester of sodium isethionate with fatty acid of coconut carbon chain blend or blend equivalent.	As surfactant, create wet feeling, solubilizes oil, and reduces surface tension, also aid in foaming	Personal care like shampoos shower gels, bubble bath, Liquid soaps baby products & syndet bars
VEGAROL SCI 85	Sodium salt of ester of sodium isethionate with fatty acid of coconut carbon chain blend or blend equivalent.	As surfactant, create wet feeling, solubilizes oil, and reduces surface tension, also aid in foaming	Personal care like shampoos shower gels, bubble bath, Liquid soaps baby products & syndet bars
VEGACID SLI 80	Sodium salt of ester of sodium isethionate with fatty acid of coconut carbon chain blend or blend equivalent.	As surfactant, create wet feeling, solubilizes oil, and reduces surface tension, also aid in foaming	Personal care like shampoos shower gels, bubble bath, Liquid soaps baby products & syndet bars
VEGAROL 1298 TAM	Dodecyldimethylamine	Quaternary ammonium compounds, Amine oxides and Betaines	Home & Personal Care/ Agro chemicals/ Textile Auxiliaries/ Water treatment/ Sugar/ Paper & Pulp Industry, etc.
VEGAROL 1498 TAM	Tetradecyl dimethylamine	Quaternary ammonium compounds, Amine oxides and Betaines	Home & Personal Care/ Agro chemicals/ Textile Auxiliaries /Water treatment/ Sugar/ Paper & Pulp Industry, etc.
VEGAROL 1265 TAM	Dodecyl & Tetradecyl dimethylamine	Quaternary ammonium compounds, Amine oxides and Betaines	Home & Personal Care/ Agro chemicals/ Textile Auxiliaries /Water treatment / Sugar/ Paper & Pulp Industry, etc.
VEGAROL 1270 TAM	Dodecyl & Tetradecyl dimethylamine	Quaternary ammonium compounds, Amine oxides and Betaines	Home & Personal Care/ Agro chemicals/ Textile Auxiliaries /Water treatment/ Sugar/ Paper & Pulp Industry, etc.
VEGAROL 1698 TAM	Hexadecyl dimethylamine	Quaternary ammonium compounds, Amine oxides and Betaines	Home & Personal Care/ Agro chemicals/ Textile Auxiliaries /Water treatment/ Sugar/ Paper & Pulp Industry, etc.
VEGAROL 1898 TAM	Octadecyl dimethylamine	Quaternary ammonium compounds, Amine oxides and Betaines	Home & Personal Care/ Agro chemicals/ Textile Auxiliaries /Water treatment/ Sugar/ Paper & Pulp Industry, etc.
VEGAROL 1870 TAM	Hexadecyl & Octadecyl dimethylamine	Quaternary ammonium compounds, Amine oxides and Betaines	Home & Personal Care/ Agro chemicals/ Textile Auxiliaries/ Water treatment/ Sugar/ Paper & Pulp Industry, etc.
VEGAROL 2280 TAM	Alkyl (C20-C22) dimethylamines	Quaternary ammonium compounds, Amine oxides and Betaines	Home & Personal Care/ Agro chemicals/ Textile Auxiliaries/ Water treatment/ Sugar/ Paper & Pulp Industry, etc.
VEGAROL BT 80	Behentrimonium Chloride	Used as an antistatic, hair conditioning, emulsifier, or preservative agent	Beauty, Bath & Shower, Skin Care, Hair Care
VEGAROL CT 25	Cetrimonium Chloride	Used as a preservative, antistatic agent, antiseptic, and disinfectant	Beauty, Bath & Shower, Colour Cosmetics, Hair Care, Home Care

Sustainability and Environment

Long-term sustainability for VVF rests on 3 pillars – Environmental, Social and Economic.

VVF is a registered member of RSPO and has the RSPO – SCC MassBalance certification. VVF also prides itself in energy saving and green manufacturing practices.

The company's processing and manufacturing unit is methanol free and chromium free. The effluent treatment plant and captive power generation plant have made the company a role model and VVF is on the advisory panel within the Industrial estate in Mumbai – India.

VVF's believes in fair trade and fair business practices making it a sustainable business partner.

The company's strict code of conduct enforces a no child labour or forced labour policy and protection of human rights with no discrimination or harassment at the work place.

We are the recipients of the SAFE TECH AWARD 2019 – A National Level award for Best Worker Safety Measures.

VVF Cares

VVF : UPLIFTING COMMUNITIES – An initiative by VVF and the Anarde Foundation giving back to the local farmer communities and working together towards a better future. It is a program aimed at the uplifting of the local Indian mustard seed farmer, their families and the local community through social and economic development projects and initiatives planned throughout the year.

CHILDREN FOR CHANGE – An initiative by VVF Children for Change is our contribution to the future generations of our country.

It is a program aimed at building a better future for our nation, by creating and spreading awareness on basic health and hygiene issues.

We believe that when you educate a child, you educate a nation. Children are great influencers of society. By teaching and encouraging children to follow proper health and hygiene practices, we're trying to create a ripple effect whereby these children will pass on the information to their families, friends and others, who will carry it forward to future generations.

Our Oleochemical Locations:

India | Indonesia | Singapore | USA

OUR SUPPLY FOOTPRINT

VVF (India) Ltd.

109, Opposite Sion Fort Garden, Sion (East), Mumbai – 400022, India.
